

Switches

10AX Plate Switches (Modular)
 10AX Archtrave Switches (Modular)
 Dimmer Switches | Control Switches
 45A Switches | 50A Pull Switch

The range of Mode[®] switches described in the following pages has been developed largely as a modular range based on the large selection of Polar[™] white coloured switch modules available in the Minigrid[™] module range - see opposite page.

These same modules are fully interchangeable in other Click[®] accessory ranges such as Metal Clad, Deco[®] & Define[®] decorative metal as well as the Polar[™] moulded range.

Simple, single screw fixing of modules offers the simplest possible means of installing and replacing modules.

Dedicated media transfer plates and modules are dealt with in the later pages of this catalogue in the New Media[™] section.

MINIGRID[®]

The products illustrated in this section of the catalogue are finished plates and unfurnished mounting plates.

For comprehensive information on the full range of modules available please refer to our Minigrid[™] product brochure.
